...the Bosch  
**Sound Projectors**

Bosch has now put its highest-performance speaker technology into an exceptional design: the Bosch Sound Projector series. High-end design and completely concealed wiring means that they can be seamlessly integrated into a vast range of different interior styles.

**Versatile in use**

The Bosch Sound Projector comes in three versions:

- Two uni-directional models which can be precision aimed like a spotlight
- One spherical, suspended model
- One bi-directional model with two back-to-back loudspeakers, especially well-suited to corridors and arcades.

All are designed to be easily installed in difficult locations where many other speakers can't go.

**Clear, natural sound**

Bosch sound projectors have a remarkably wide tonal range. The result is great-sounding music and perfectly intelligible speech, in noisy spaces and over long distances. They are fully EVAC compliant, which means they can be relied upon in extreme circumstances.

**When visual appeal has to be matched by absolute reliability and superb sound quality, the Bosch Sound Projector is the ideal choice.**

- Yes, please send me more information on the Bosch sound projectors
- Yes, I would like a Bosch representative to contact me
